Insertions by Authors in August 2019

Deletions by Authors in August 2019

CONCLUSION

To conclude, last month in July, there were more active authors than this month. However, this does not necessarily mean that our productivity is decreased. As always, Mike McQuaid remains as the most active author in July and August. Mike is also leads in File Changes in August. EricFromCanada is the top in Insertions and Deletions. In this month, Homebrew was also able to update Nokogiri. More updates and projects will be announced next month.
